Table of Contents

Introduction

Definitions & Explanations

The UAS Ecosystem Constituents

♦ **Products (per system element)**

- Aircraft
  - Airframe Elements
  - Propulsion
  - Energy
  - Flight Control
  - Sub-systems
  - Sub-assemblies
  - Payloads - Imaging
  - Payloads - Non-imaging
  - Measurement
  - Detection
  - Other
- Ground-based Elements
  - System-related Infrastructure
- Communication
- Software
- Critical Components
- Traffic Management
- Training Simulators — Hardware & Software
- Counter-UAS Systems — Hardware & Software

♦ **Services**

- Educational
- Airspace Information & Management
- Infrastructure-related
- UAS Operations
- Operations-related
- Producer/Product-related
- Flight Mission Services Supplied by UAS Operators
- Operation-related Services
  - Commercial
  - Non-Commercial
  - Public

♦ **UAS Market Sectors**

♦ **UAS Flight Mission Purposes**

♦ **Flight Mission Service Customers**

♦ **Additional Stakeholders (Public & Private)**

♦ **End-Customers** *(of data or services supplied by means of UAS)*

♦ **Overview of the UAS Ecosystem**
