

COMING OUT IN FEBR. 2025

International UAS Directories

New Layout & Updated Content

> 2000 UAS

> 750 Producers

66 Countries

**Industry
Overview**

20TH Edition

**Sector
Focus**

3RD Edition

UAS Concerned	All types, sizes, masses, propulsion methods, launch & recovery systems, for all applications, in development/production in all countries		
◆ Master Table Supplying Following Information - Alphabetically by Producer			
System Producer			
Country			
System Designation / Name			
Usage Categories	Aerial Work Passenger Transport	Cargo Transport Governmental & Military	
Status	Conceptual Prototype Market Ready	In Development Demonstrator In Production	Experimental Research Project
Airframe Type	Fixed wing aircraft Motorised parafoil Rotorcraft	Fixed wing with lift rotors No wings/no rotors Tilt wing	Lighter-than-air Ornithopter Transitioning wing
Rotorcraft Class	Bicopter Gyroplane Pluricopter (>10 rotors) Tailsitter	Birotor Coaxial Monocopter Tandem Ducted Rotors Tethered	Birotor Intermeshing Multicopter (<10 rotors) Tandem Rotor Drone-in-a-box
Propulsion	Electric Jet / Turbine	Piston Other	Hybrid
Fuel / Energy	AvGas Gasoline Solar Panel Other	Battery Heavy Fuel 2-Stroke	Fuel Cell Nitrogen 4-Stroke
Command & Control	Manual	Programmed/Automatic	SatCom enabled
Control Range	in km		
Flight Endurance	in minutes & km		
Maximum Cruise Speed	in km/h		
Maximum Take-Off Weight	in kg		
Payload Capacity	in kg and/or quantity of passengers		
Mission Payload	Imaging Other (non-military)	Sensing & Measurement Other (military)
